

S3 CUBES

Innovations Private Limited

S3 Cubes & Soulene — Detailed Overview

Company • Product • Purpose • Features • User Experience

S3 Cubes is the company that developed Soulene.

1. S3 Cubes Innovations Private Limited

S3 Cubes Innovations Private Limited is the technology company behind Soulene. It is an Indian IT company registered with the Ministry of Corporate Affairs and focuses on building innovative digital products, enterprise software, cloud systems, AI-enabled solutions, and scalable digital platforms.

Most importantly for this document: S3 Cubes is the developer/company behind Soulene. Soulene is one of the company's digital products, created to provide a dedicated mental wellness and emotional support experience.

What S3 Cubes Does

S3 Cubes works as a technology and product-development company. It takes digital product ideas and turns them into usable software platforms and systems. Its work includes software development, web applications, cloud infrastructure, AI and automation, SaaS products, and backend/API systems.

- Builds and develops digital products
- Creates software platforms and web applications
- Works with cloud-based systems and infrastructure
- Develops AI and automation solutions
- Builds SaaS and scalable platforms
- Develops backend systems, APIs, and integrations

S3 Cubes in Relation to Soulene

The relationship is straightforward: S3 Cubes is the company and technology developer; Soulene is the product. S3 Cubes provides the engineering and product-development foundation through which Soulene is built and delivered to users.

S3 Cubes → Developer / Company
Soulene → Mental Wellness Product

2. Soulene

Soulene is an integrated mental wellness and emotional support ecosystem. It is designed to help individuals build inner resilience, manage everyday stress, and achieve emotional balance.

Soulene brings multiple forms of support together in one platform: AI-powered insights, personalized wellness experiences, certified human mentorship, community and workshops, and self-guided wellness tools.

Developed by: S3 Cubes Innovations Pvt Ltd

Official website: www.soulene.org

Availability: Google Play Store and Apple App Store

3. Soulene's Approach to Mental Wellness

Soulene is built around the idea that mental wellness is an ongoing journey. The platform combines personalized support with practical daily tools so that users can work on their wellbeing regularly, rather than relying on a single type of interaction.

- Personalized support based on individual needs and goals
- Daily emotional awareness and check-ins
- Practical self-guided wellness activities
- Professional human guidance when deeper support is desired
- Community-based learning and supportive experiences
- Tools for building consistency, resilience, and self-awareness

4. Soulene's Core Ecosystem

AI-Powered Support

Soulene provides personalized insights, intelligent mood tracking, and automated custom wellness plans tailored to individual emotional patterns and personal goals.

Certified Mentorship

Users can access confidential 1-on-1 sessions with certified wellness experts, along with weekly action planning, personalized roadmaps, and continuous progress evaluation.

Community & Workshops

Soulene provides a judgment-free environment with group discussions, real-life scenario sessions, and interactive workshops focused on stress resilience.

Self-Guided Wellness Toolkit

The platform provides guided meditations, daily wellness check-ins, reflective journaling, sleep stories, and specialized relaxation exercises.

5. AI-Powered Personalized Experience

The AI component is intended to make the Soulene experience more relevant to the individual user. Rather than treating every user in exactly the same way, Soulene uses the user's emotional patterns and personal goals as the basis for personalized insights and wellness planning.

Mood Tracking — Supports regular tracking of mood and emotional patterns.

Personalized Insights — Provides insights tailored to the user's individual emotional patterns.

Personalized Wellness Plans — Creates custom wellness routines aligned with individual needs and goals.

Advanced Mood Analytics — Provides deeper mood-related analytics within the Wellness Plan.

6. Human Mentorship

Soulene complements technology-based support with human mentorship. This gives users an option to receive personalized guidance from certified wellness professionals.

- Confidential 1-on-1 sessions
- Certified wellness experts
- Weekly action planning
- Personalized roadmaps
- Continuous progress evaluation
- 24/7 mentor support in the Mentor Plan
- Monthly analytical reports in the Mentor Plan

7. Community & Workshops

The community component is designed as a judgment-free environment where users can participate in shared learning and supportive conversations.

- Group discussions
- Real-life situation discussions
- Interactive workshops
- Mindful group sessions
- Community support
- Stress-resilience focused activities

8. Self-Guided Wellness Tools

Users can work independently with a collection of wellness resources. These tools are intended to make wellness practice accessible as part of everyday routines.

- Guided meditation library
- Daily wellness check-ins
- Reflective journaling
- Stress and anxiety tools
- Guided mindfulness exercises
- Mood tracking
- Deep emotional exploration
- Sleep and relaxation exercises
- Daily wellness challenges
- Expert online webinars

9. Problems Soulene Is Designed to Address

Chronic Stress & Competitive Burnout

Structured routines and supportive discussions help users navigate high-pressure environments and intense performance demands.

Anxiety & Emotional Regulation

Breathing techniques, guided meditation, and structured journaling provide practical ways to work with difficult emotions.

Personal Clarity & Habit Consistency

Daily check-ins, self-reflection, self-awareness, and mentor-led roadmaps encourage accountability and consistency.

10. Soulene Sports

Soulene also includes Soulene Sports, a dedicated mental wellness experience for athletes. It focuses on the psychological demands of competition and provides sport-specific tools for managing performance pressure, injury setbacks, selection stress, and mental toughness.

- Sport-specific assessments with analysis
- Progress tracking
- Athletic journaling and self-reflection
- Mood and readiness checks
- Brain games and puzzles for pre-game anxiety
- Private, self-guided mental wellness practice

Soulene Sports is designed as a private experience. Its current site states that users' personal logs, assessments, and check-ins are visible only to them and that the product does not use public social feeds.

11. Soulene Membership Plans

Plan	Price	What the User Gets
Basic	Free	Daily wellness check-ins, guided meditation library, community access, wellness assessments, and self-paced exploration.
Wellness Plan	₹449/month	Everything in Basic, plus AI-powered insights, personalized plans/routines, and advanced mood tracking/analytics.
Mentor Plan	₹4,999/month	Everything in Wellness, plus 1-on-1 mentor sessions, personalized roadmap, 24/7 mentor support, and monthly progress reports.

12. How a User Can Experience Soulene

Soulene can be understood as a progressive wellness journey. A user can begin with simple daily tools, develop greater awareness through tracking and reflection, use personalized plans to build consistency, participate in community experiences, and choose professional mentorship for more personalized guidance.

1. Begin with self-guided wellness tools and daily check-ins.
2. Use assessments and mood tracking to understand patterns.
3. Receive personalized insights and wellness routines.
4. Practice through meditation, journaling, relaxation, and other guided tools.
5. Join community sessions and workshops for shared learning and support.
6. Choose certified mentorship when personalized human guidance is needed.
7. Track progress over time and continue building consistent wellness habits.

13. S3 Cubes + Soulene: Simple Explanation

S3 Cubes Innovations Private Limited is the company that developed Soulene. S3 Cubes is responsible for the technology and product development behind the platform, while Soulene is the user-facing mental wellness product and ecosystem.

This means Soulene should be presented as a product of S3 Cubes rather than as a separate unrelated company.

S3 CUBES INNOVATIONS PVT LTD

SOULENE

Mental Wellness & Emotional Support Ecosystem

14. Short Company + Product Introduction

S3 Cubes Innovations Private Limited is an Indian technology company focused on building innovative digital products and scalable software solutions.
