SERVICES

Support for people. Systems for wellbeing.

Wellbeing doesn't look the same everywhere.

Sometimes, it begins with a person looking for a little more clarity, support, or space to understand what they're going through.

Sometimes, it means a school creating a stronger support system for its students. A university making help easier to access. A workplace supporting the people behind the work. Or a sports organization helping athletes build the mental strength to perform, recover, and grow.

Soulene brings together technology, self-help, and human care to make wellbeing support more accessible, more connected, and more continuous.

Find the kind of support you're looking for.

FOR YOU

Support that meets you where you are.

You don't have to wait until things feel overwhelming to seek support.

Soulene gives you a private space to reflect, understand yourself better, build healthier habits, and access professional support when you need it.

Explore Individual Support

FOR SCHOOLS

Building mental wellbeing into the school ecosystem.

Student wellbeing needs more than occasional conversations or isolated interventions.

Soulene helps schools build a structured support system that brings together prevention, early support, professional care, and the wider school community.

Explore School Solutions

FOR UNIVERSITIES

A safety net that respects independence.

University students are building lives, identities, and independence.

Soulene helps universities create connected wellbeing systems that make support accessible while giving students the privacy, autonomy, and choice to seek help in the way that works for them.

Explore University Solutions

FOR WORKPLACES

Wellbeing that goes beyond the wellness calendar.

People bring their whole selves to work.

Soulene helps organizations support their people through a connected approach that brings together everyday self-help, professional support, practical workshops, and broader wellbeing insight.

Explore Workplace Solutions

FOR SPORTS & ATHLETES

Building the mental strength behind every athlete.

The mental side of performance deserves consistent support too.

Soulene Sports gives athletes a private space to build self-awareness, resilience, and healthier mental habits, while complementing the coaches, medical teams, and professionals already around them.

Explore Sports Solutions

**(OPTIONAL) ONE CONNECTED APPROACH TO
WELLBEING**

Technology for scale. Self-help for everyday life. Human care when it matters most.

Soulene connects the different levels of support people may need throughout their wellbeing journey.

Technology makes support more accessible and connected.

Self-help gives people the ability to begin privately and at their own pace.

Human care provides professional support when deeper help is needed.

Whether someone finds Soulene through their school, university, workplace, sports organization, or independently, the journey can remain connected to them as an individual.

Support can begin within an institution. The journey can continue with the individual.

FIND YOUR NEXT STEP

Whether you're looking for support for yourself or building a stronger wellbeing system for your community, we're here to start the conversation.

For yourself

Start Your Journey

For your organization

Get in Touch

The Soulene Approach

THE SOULENE APPROACH (OPTIONAL)

Support that connects with people wherever they are.

Wellbeing support should not feel fragmented.

A person may need a simple tool today, a space to reflect tomorrow, and professional support at another point in their life.

An institution may need to build a system that supports an entire community, while every person within that system still needs support that feels personal.

Soulene brings these different needs together.

TECHNOLOGY

Technology helps make support more accessible, connected, and scalable.

It helps people access support in their everyday lives and helps institutions build stronger systems around the communities they serve.

SELF-HELP

Not every moment requires professional intervention.

Sometimes, people need a place to pause, reflect, understand themselves, and develop healthier ways of navigating everyday challenges.

Self-help gives people the ability to begin where they are.

HUMAN CARE

Some moments require more.

When self-guided support is not enough, people should have a clear pathway to professional care.

Soulene connects individuals to appropriate counselling and professional support when they need it.

ONE CONNECTED JOURNEY

Technology helps make support accessible.

Self-help helps people begin.

Human care provides deeper support when it is needed.

Together, they create a more continuous approach to wellbeing.

Start where you are.

Find the support you need.

Continue your journey at your own pace.

SUPPORT CAN BEGIN WITH AN INSTITUTION. THE JOURNEY BELONGS TO THE INDIVIDUAL.

A student may first discover Soulene through their school or university.

An employee may first access it through their workplace.

An athlete may first receive access through their team or organization.

But their wellbeing journey remains personal.

Through Soulene, people connected to an institution can also access individual support for themselves - privately, personally, and at their own pace.

The institution creates access.

The individual owns the journey.

ONE PLATFORM. MANY PLACES TO BEGIN.

For yourself.

For your students.

For your employees.

For your athletes.

For the people and communities you care for.

Wherever support begins, Soulene helps make the journey more connected.

For Individuals

Section 2: For Individuals - Soulene App

This section should feel more personal, spacious, and emotionally reassuring than the institutional sections. The focus is on the individual feeling **seen, supported, and in control of their own journey**.

FOR YOU

You don't have to figure everything out alone.

Some days, you may need a space to pause.

Some days, you may want to understand what you're feeling.

And sometimes, you may need someone to talk to.

Soulene gives you a private space to begin wherever you are - with tools for self-reflection, support for everyday challenges, and access to professional care when you need more.

SUPPORT THAT MOVES WITH YOU

Your wellbeing journey doesn't have to fit into one format.

You may begin by checking in with yourself. You may want to reflect, understand your emotions, build healthier habits, or learn how to navigate something you're going through.

And when self-guided support isn't enough, professional support is there too.

Soulene brings these different levels of support together in one continuous journey.

Start with yourself.

Take time to understand what you're feeling, what you're experiencing, and what you may need.

Build support into everyday life.

Use guided tools and structured resources to help you navigate everyday challenges, build awareness, and develop healthier ways of coping.

Reach out when you need more.

When you feel ready for professional support, access counselling and therapy through a connected pathway.

A SPACE THAT'S YOURS

Your journey is personal.

Soulene gives you the space to reflect honestly, explore what you're experiencing, and seek support at your own pace.

No judgement.

No pressure to have everything figured out.

Just a place to begin.

SUPPORT FOR THE MOMENTS THAT MATTER

Whether you're trying to understand yourself better, manage everyday stress, work through a difficult period, or simply build healthier emotional habits, Soulene is here to help you take the next step.

You don't need to know exactly what you need before you begin.

You can start where you are.

FROM SELF-HELP TO PROFESSIONAL SUPPORT

Sometimes, the first step is simply checking in with yourself.

Sometimes, you need tools to help you understand and navigate what you're experiencing.

And sometimes, you need to speak to someone.

Soulene helps connect these different kinds of support so that you don't have to start over every time your needs change.

Understand yourself.

Find your tools.

Build your support.

Reach out when you're ready.

YOUR JOURNEY. YOUR PACE.

There is no single right way to take care of your wellbeing.

Begin with a moment of reflection.

Explore support that feels right for you.

And when you need someone to walk alongside you, professional care is within reach.

You can start wherever you are.

Start Your Journey

Next section: For Schools. This will shift into a more structured, institution-facing tone and focus on building a complete school-wide mental wellbeing ecosystem rather than presenting Soulene as a counselling service alone.

For Schools

FOR SCHOOLS

Mental wellbeing, built into how your school works.

Student wellbeing cannot depend on a single counsellor, occasional workshops, or support that only becomes visible when something goes wrong.

A school needs a system that helps build resilience, notice concerns earlier, provide appropriate support, and bring the wider school community into the conversation.

Soulene helps schools build a structured, technology-enabled mental wellbeing ecosystem that supports students, strengthens the people around them, and makes wellbeing a part of how the school works.

FROM COUNSELLING AS A SERVICE TO WELLBEING AS INFRASTRUCTURE

A healthy school environment is built through more than one intervention.

Soulene brings together preventive support, early identification, professional care, and institutional coordination to help schools move from fragmented support to a more connected wellbeing system.

PREVENT

Build emotional awareness, resilience, life skills, and healthy coping habits across the student community.

IDENTIFY EARLY

Create clearer pathways for concerns to be noticed and supported before they become more difficult to address.

SUPPORT & ESCALATE

Provide access to structured counselling and appropriate professional support when students need deeper care.

SUPPORTING THE WHOLE SCHOOL COMMUNITY

Student wellbeing does not exist in isolation.

The people around a student often play an important role in creating a healthier and more responsive environment.

Soulene helps bring together:

STUDENTS

Support that helps students build emotional awareness, resilience, and healthier ways of navigating challenges.

TEACHERS

Greater confidence and capability to recognize concerns, respond appropriately, and help students access the right support.

PARENTS

A stronger understanding of how to support emotional wellbeing beyond the school environment.

COUNSELLORS

A more connected system for supporting students, documenting care, and working across different levels of need.

SCHOOL LEADERSHIP

Greater visibility into broader wellbeing needs and the ability to build a more structured, informed support system.

A SUPPORT SYSTEM THAT CAN GROW WITH YOUR SCHOOL

Every school is at a different point in its wellbeing journey.

Some are building their foundations.

Some are strengthening existing counselling systems.

Others are ready to create a more integrated institutional approach.

Soulene works alongside your existing systems to help you build from where you are and grow toward where you want to be.

MORE THAN A SINGLE POINT OF SUPPORT

A school-wide wellbeing system should help support people at different points in their journey.

For some students, this may mean prevention and emotional skill-building.

For others, it may mean recognizing that they need additional support.

And for some, it may mean access to professional care.

Soulene helps create a clearer path between these levels of support.

SUPPORT THAT EXTENDS BEYOND THE SCHOOL

A student's wellbeing journey does not end when they leave the school campus.

Through Soulene, students can also access individual support for their own private wellbeing journey.

The institution builds the ecosystem.

The individual retains their own space.

A stronger support system for the school. A more personal support journey for every student.

BUILD A STRONGER WELLBEING SYSTEM FOR YOUR SCHOOL

Your school may already have some of the pieces in place.

Soulene helps connect them into a more structured, scalable, and continuous approach to student wellbeing.

Let's build a healthier school ecosystem together.

Talk to Our Team

For Universities

FOR UNIVERSITIES

A safety net that respects independence.

University is a time of growing independence.

Students are making more decisions for themselves, navigating new pressures, and building lives beyond the structures they grew up with.

Their wellbeing support should evolve with them.

Soulene helps universities create a connected support ecosystem that makes help easier to access while giving students the autonomy, privacy, and choice to seek support in the way that works for them.

SUPPORT WITHOUT SURVEILLANCE

A strong university wellbeing system should make support easier to find - not make students feel watched.

Soulene helps universities create structures that support students while respecting their independence.

Students can:

SEEK SUPPORT WHEN THEY NEED IT

Access support through pathways that are easier to find and easier to use.

START PRIVATELY

Begin with self-guided tools and individual support at their own pace.

CHOOSE THEIR NEXT STEP

Move toward additional support when they feel ready and when their needs require it.

STAY CONNECTED TO PROFESSIONAL CARE

Access appropriate counselling and professional support through a clear and trusted pathway.

A CONNECTED SUPPORT SYSTEM FOR ADULT LEARNERS

Student wellbeing is shaped by more than one person or department.

Soulene helps bring together the wider university support ecosystem.

STUDENTS

Greater access to private, self-directed wellbeing support.

FACULTY & MENTORS

The capability and structure to notice concerns, support students appropriately, and help connect them to further support when needed.

STUDENT SUPPORT TEAMS

A more connected way to coordinate wellbeing support and referral pathways.

UNIVERSITY LEADERSHIP

Broader visibility into institutional wellbeing needs while respecting individual privacy.

THE RIGHT BALANCE BETWEEN AUTONOMY AND SUPPORT

University students should be able to make choices about their own wellbeing.

At the same time, no student should have to navigate serious challenges without knowing where to turn.

Soulene helps universities create the balance between:

INDEPENDENCE

Students have space to seek support in their own way.

ACCESS

Support is easier to find when it is needed.

CONTINUITY

The journey can move from self-guided support to professional care without feeling fragmented.

SAFETY

Clear pathways exist when a student needs more structured or urgent support.

SUPPORT THAT STUDENTS CAN TAKE WITH THEM

A university may provide the environment in which a student first finds support.

But wellbeing is personal.

Through Soulene, students can also access individual support for their own private journey - alongside or beyond their institutional touchpoints.

The university builds the support system.

The student owns their journey.

BUILD A UNIVERSITY WHERE SUPPORT IS EASIER TO FIND

Student wellbeing should not be limited to a counselling centre or only become visible when a crisis occurs.

Soulene helps universities build a more connected, accessible, and student-centred approach to wellbeing.

Support their independence. Strengthen their safety net.

Partner With Us

For Workplaces

FOR WORKPLACES

Wellbeing that goes beyond the wellness calendar.

People bring their whole selves to work.

Stress affects focus. Burnout affects performance. Disengagement affects teams. And when people don't have the support they need, organizations often end up responding only when the problem has already become difficult to ignore.

Soulene helps organizations build a more continuous approach to employee wellbeing - one that supports people in everyday moments, provides professional care when needed, and helps organizations create healthier ways of working.

SUPPORT FOR THE PEOPLE BEHIND THE WORK

Wellbeing is not a single workshop or an annual initiative.

Different people need different kinds of support at different moments.

Soulene brings together:

EVERYDAY SELF-HELP

Give employees access to private tools that help them build self-awareness, manage everyday challenges, and develop healthier emotional habits.

PROFESSIONAL SUPPORT

Create a trusted pathway to counselling and professional care when employees need more than self-guided support.

PRACTICAL WORKSHOPS

Build capability around the issues that shape everyday work - from stress and communication to leadership, resilience, and workplace relationships.

ORGANIZATIONAL INSIGHT

Help leadership understand broader wellbeing patterns across the organization through aggregated insights, while respecting individual privacy.

FROM THE FIRST CHECK-IN TO THE RIGHT LEVEL OF SUPPORT

People do not always know what kind of support they need when they first reach out.

Sometimes, they need a place to reflect.

Sometimes, they need practical tools.

Sometimes, they need to speak with someone.

And sometimes, they need more specialized professional care.

Soulene helps create a more connected pathway between these different levels of support.

BEGIN WITH AWARENESS.

Help people recognize what they are experiencing.

BUILD HEALTHIER HABITS.

Make self-guided support part of everyday wellbeing.

CONNECT WITH PROFESSIONAL CARE.

Make it easier to access appropriate support when deeper help is needed.

WELLBEING THAT WORKS WITH YOUR ORGANIZATION

Every organization has a different culture, workforce, and set of needs.

Soulene can support organizations at different points in their wellbeing journey.

Begin with focused workshops.

Create access to individual support.

Build toward a more connected wellbeing ecosystem.

The approach can grow with your organization.

SUPPORT PEOPLE. STRENGTHEN CULTURE.

When people have better access to support, organizations are better positioned to build:

MORE FOCUSED TEAMS

People who have the support to manage challenges are better able to stay engaged with their work.

HEALTHIER WORKPLACES

A culture of wellbeing is built through everyday access to support - not only through occasional initiatives.

EARLIER SUPPORT

People can access help before challenges become harder to navigate.

STRONGER RETENTION

When people feel supported, wellbeing becomes part of the broader employee experience.

PRIVATE FOR THE INDIVIDUAL. INSIGHTFUL FOR THE ORGANIZATION.

People need to trust that their personal wellbeing journey remains personal.

Organizations, meanwhile, need to understand broader patterns in order to make better decisions.

Soulene is designed to support both.

Individuals receive access to private support.

Leadership can gain broader, aggregated insight into organizational wellbeing.

Support should never come at the cost of privacy.

BUILD A WORKPLACE WHERE SUPPORT IS EASIER TO ACCESS

The people behind your organization are its most important asset.

Supporting their wellbeing is not separate from building a stronger organization.

It is part of it.

Let's talk about what your people need.

Book a Consultation

For Sports & Athletes

FOR SPORTS & ATHLETES

Building the mental strength behind every athlete.

Athletes train their bodies with structure, consistency, and discipline.

The mental side of performance deserves the same level of support.

Behind every performance are pressures that may not always be visible - competition, expectations, injury, setbacks, selection uncertainty, burnout, and the constant demand to perform.

Soulene Sports gives athletes a private space to build self-awareness, develop mental resilience, and access professional support when they need it.

All while complementing the coaches, medical teams, and support professionals already around them.

THE PRESSURE IS REAL. THE STRUGGLE ISN'T ALWAYS VISIBLE.

An athlete may appear focused and confident while privately dealing with:

- Performance anxiety
- Fear of failure
- Loss of confidence
- Injury-related stress
- Emotional fatigue
- Burnout
- Selection pressure
- The challenge of recovering from setbacks

Not every athlete will speak about these experiences openly.

That is why support should be available before someone reaches a point where asking for help feels impossible.

PRIVATE FOR THE ATHLETE. CONNECTED TO THE ECOSYSTEM.

Athletes need a space where they can be honest about what they are experiencing.

Soulene Sports gives athletes a private, individual space to reflect, build awareness, and access support at their own pace.

At the same time, it strengthens the wider support ecosystem around them.

ATHLETES

Build self-awareness, resilience, and healthier mental habits in a private space.

COACHES

Continue focusing on performance, development, and the athlete–coach relationship.

MEDICAL & SUPPORT TEAMS

Remain part of a coordinated support environment while athletes have access to additional professional care when needed.

ORGANIZATIONS

Create more consistent access to mental wellbeing support across teams, academies, and athlete groups.

BUILD MENTAL STRENGTH EVERY DAY

Mental resilience is not built only during difficult moments.

It develops through consistent awareness, reflection, and practice.

Soulene Sports supports athletes as they:

UNDERSTAND THEMSELVES

Recognize how emotions, pressure, and challenges may affect their experience and performance.

BUILD MENTAL SKILLS

Develop healthier ways to manage pressure, setbacks, uncertainty, and emotional challenges.

REFLECT AND GROW

Create space to process experiences - from victories to disappointments, injuries, and everything in between.

SET THEIR OWN GOALS

Build greater awareness of the relationship between wellbeing, personal growth, and performance.

ACCESS PROFESSIONAL SUPPORT

When self-guided support is not enough, access a clear pathway to qualified mental health professionals.

SUPPORT THAT ATHLETES CAN TRUST

Athletes are more likely to engage honestly when they know they have a private space to seek support without fear of judgement.

Soulene Sports is designed to make support:

PRIVATE

Athletes have a personal space to reflect and seek support.

ACCESSIBLE

Support is available as part of the athlete's everyday journey.

ATHLETE-INITIATED

Athletes have agency in deciding when they want additional support.

CONNECTED

Professional care is available when self-guided support is no longer enough.

STRENGTHENING THE PEOPLE BEHIND THE PERFORMANCE

A stronger athlete is not only physically prepared.

They are also better supported through pressure, setbacks, uncertainty, and change.

Soulene Sports helps organizations create an environment where mental wellbeing and performance can move together.

Because the strongest support system is one that helps athletes perform, recover, and continue to grow.

BUILD STRONGER ATHLETES - ON AND OFF THE FIELD.

Give your athletes access to a private, structured mental wellbeing journey while strengthening the support ecosystem around them.

Let's build a stronger support system for your athletes.
